## Construction Waste Management (CWM) Plan

Newly constructed buildings and demolition projects shall divert from landfills at least 65% of the construction materials generated during the project. All additions and alterations to non-residential and residential buildings or structures shall divert from landfills at least 65% of nonhazardous construction and demolition materials.

Note: A construction waste management plan must be submitted to the Building Division prior to permit issuance.

<b>Project Address:</b> _____

## Construction Waste Management Acknowledgment

- Save **ALL** weight receipts from jobsite waste materials that were hauled away for reuse, recycling or disposal.
- Final Report must be submitted to the Building Division prior to Final Inspection. Final Report must include all hauling weight tickets/receipts.
- Notify ALL subcontractors of the project's waste management plan.

- ☐ I understand that 65% of the waste material from this project must be recycled.
- ☐ I will save all landfill and recycling center weight receipts from hauling construction and demolition debris.
- ☐ I will put forth a good faith effort to ensure that a minimum of 65% of the debris from this project will be recycled.
- ☐ I will submit a Final Report with weight receipts to the City before scheduling the final inspection.
