Filing Requirements for DESIGN REVIEW

PURPOSE

A Design Review Permit is a discretionary action that enables the City to ensure that proposed development exhibits high quality design consistent with the General Plan and any other applicable Specific Plan or area plan adopted by the City Council. The Design Permit process is also intended to ensure that new development and uses are compatible with their surroundings and minimize negative impacts on neighboring properties.

When considering Design Review Permit applications, the City will evaluate applications to ensure that they satisfy the criteria specified in Section 18.108.040.H (Design Review Criteria) of the Morgan Hill Municipal Code, comply with the development standards of the zoning district, conform to policies of the General Plan and any applicable specific plan, and are consistent with any other policies or guidelines the City Council may adopt.
